

German Dual Vocational Education Partnership with Nigeria

Lagos, 25.10.2013

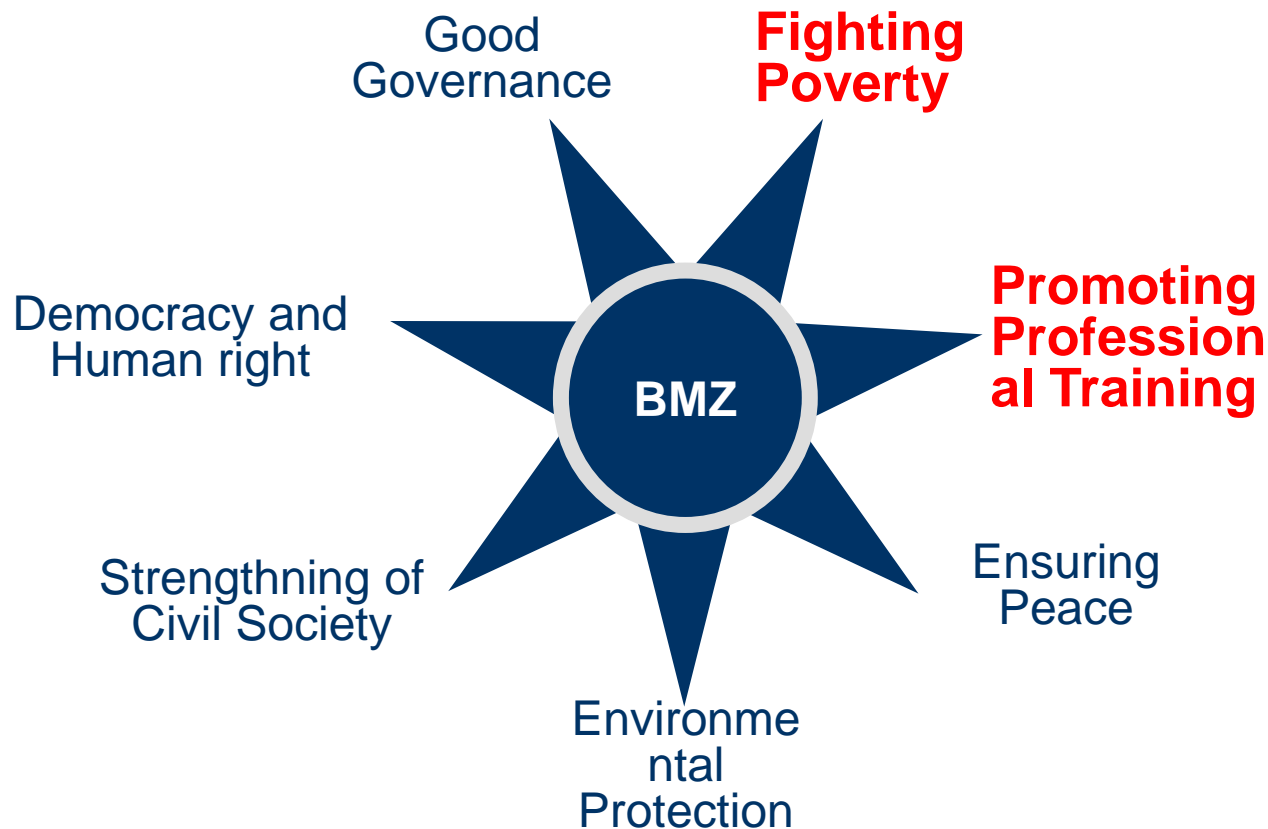

Dipl. -Ing. Kehinde Stephen Awoyele

The partnership project between Giessen-Friedberg Chambers of Commerce and Industry (CCI) and some Nigeria's Business Membership Organisations

German Partner	Chambers of Commerce and Industry, Giessen-Friedberg
Foreign Partners	Business Membership Organisations:LCCL, ABUCCIMA, OGUNCCIMA, NGBA, MAN
Other partners	Private and Public Training Centres
Technical Supervision and Management	Delegation of German Industry and Commerce / AHK Lagos
Financing	German Federal Ministry of Economic Cooperation and Development(FIRST PHASE)
Project duration	18.12.2012 – 31.12.2015

Objective and Bilateral concept of Dual Vocational Training

Training is part of Developmental effort of BMZ (German Fed. Min of Economic Cooperation and Development)

Why there is lack of practice-orientation in Nigeria's TVET System

These include:

- an insufficient involvement of the private sector in the development of curricula/training
- inadequate equipment with teaching materials
- obsolete technical infrastructure
- deficient qualification of trainers

Objective and Bilateral concept of Dual Vocational Training Partnership

The bilateral support concept

The dual vocational Training partnership is a poverty alleviating support through sustainable economic development of Partner country-(Nigeria) of German Ministry of Economic Cooperation and Development

Political Development objective

Fighting poverty through sustainable economic development in Partner countries-(Nigeria) of German Ministry of Economic Cooperation and Development.

Program Objective

Chambers and associations in selected locations in Nigeria have introduced an approach of dual vocational Training in selected professions which have been adjusted to Nigerian conditions

Strategy

Through direct know-how transfer, technical training institutions will be empowered to provide practice-oriented training.

Target Groups

Business Membership Organisations and their members with Training Centres as Intermediaries

The partnership project between Giessen-Friedberg Chambers of Commerce and Industry (CCI) and some Nigerian Business Membership Organisations

Overall Project Objective:

Increase level of qualifications and employability of young men and women in selected vocational professions and locations for them to find jobs and receive income which guarantees their existence. Quality & Services of companies taking part in Training increases as a consequence of employing people who are better qualified

Project Purpose:

Chambers and associations in selected locations in Nigeria have introduced an approach of dual vocational training in selected professions which has been adjusted to Nigerian conditions.

Result 1	Relevant occupations have been identified and existing curricula have been further developed (adapted) according to dual vocational training approach.
Result 2	Nigerian vocational Trainers have been Trained.
Result 3	School leavers / graduate and young adults have been trained according to the dual vocational training approach

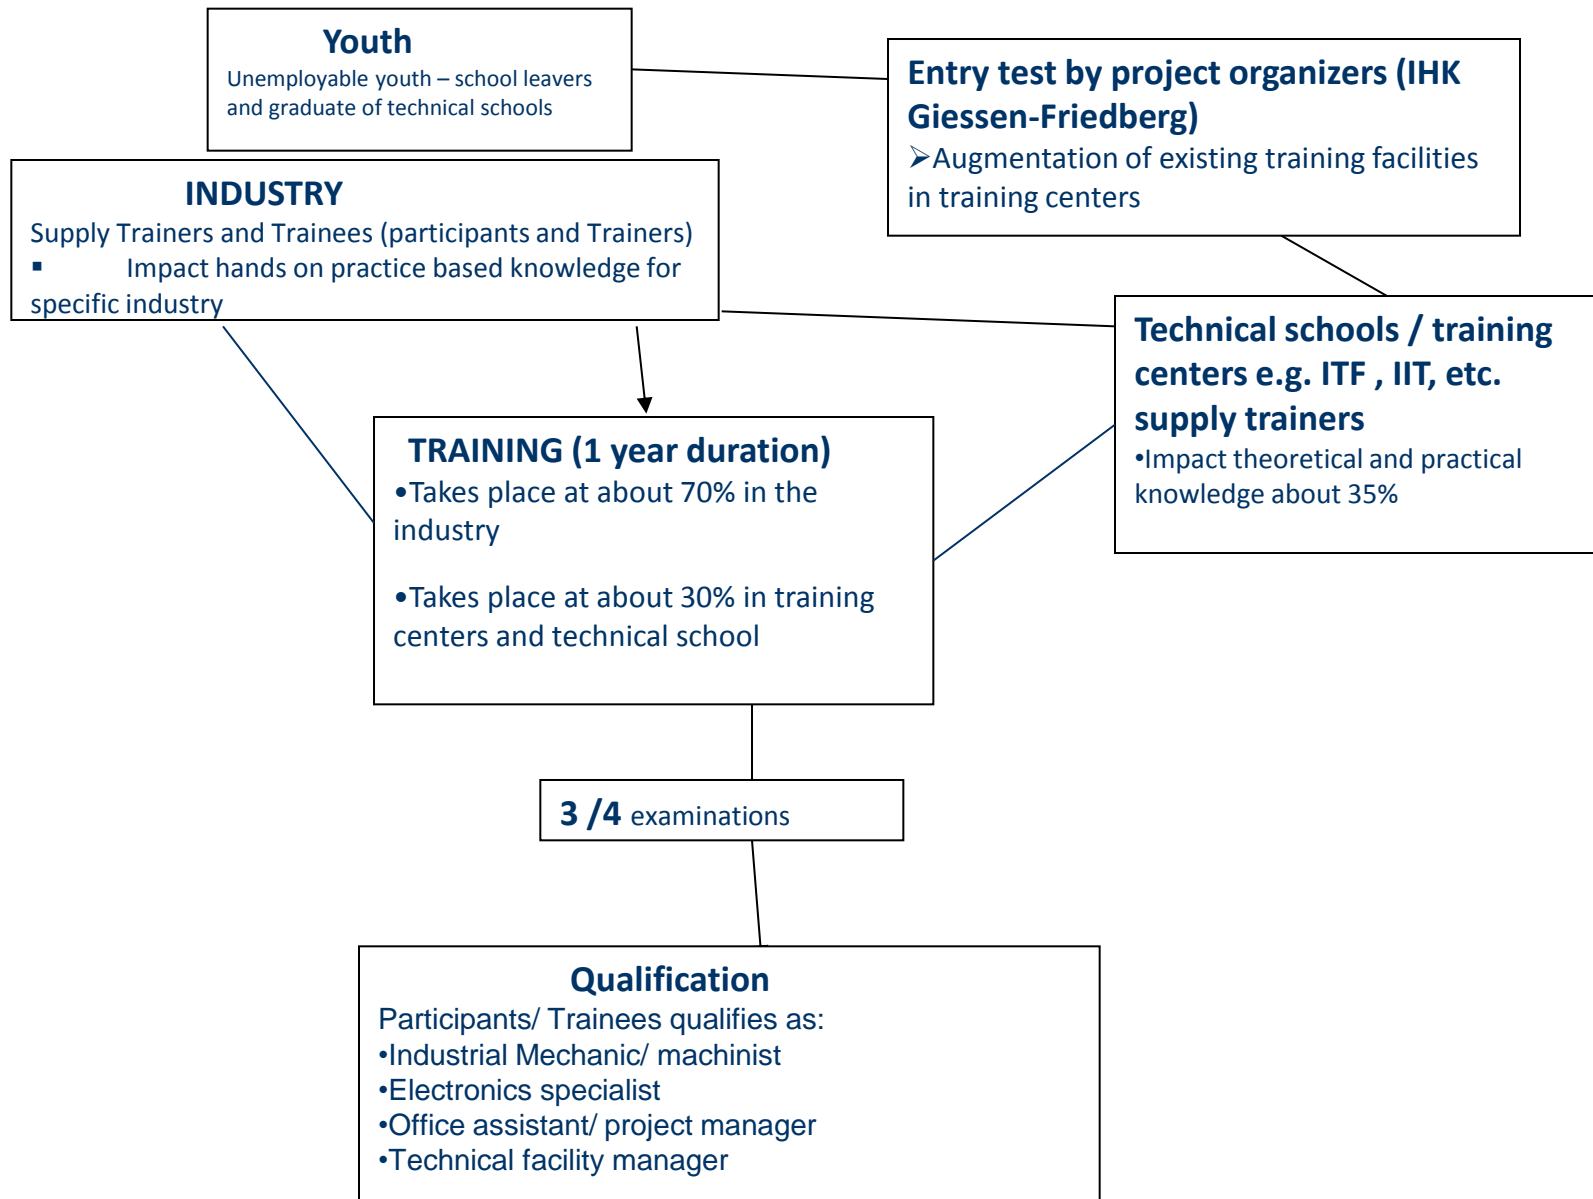

Targeted Occupation/Profession

- a) Industrial electronic: involves occupations in electrics, electronic automation and drive engineering technique for the manufacturing industry**
- b) Industrial mechanic: comprising occupations like mechanics, machine processing, maintenance and welding.**
- c) Maintenance and technical facility management which encompasses professions like builder, mason, tiller, metal fabrication and construction, plumbers and pipe fitting, carpentry & woodwork for the construction industry.**
- d) Office assistants/Project Management: comprising occupation like office assistance and project management experts for Commerce**

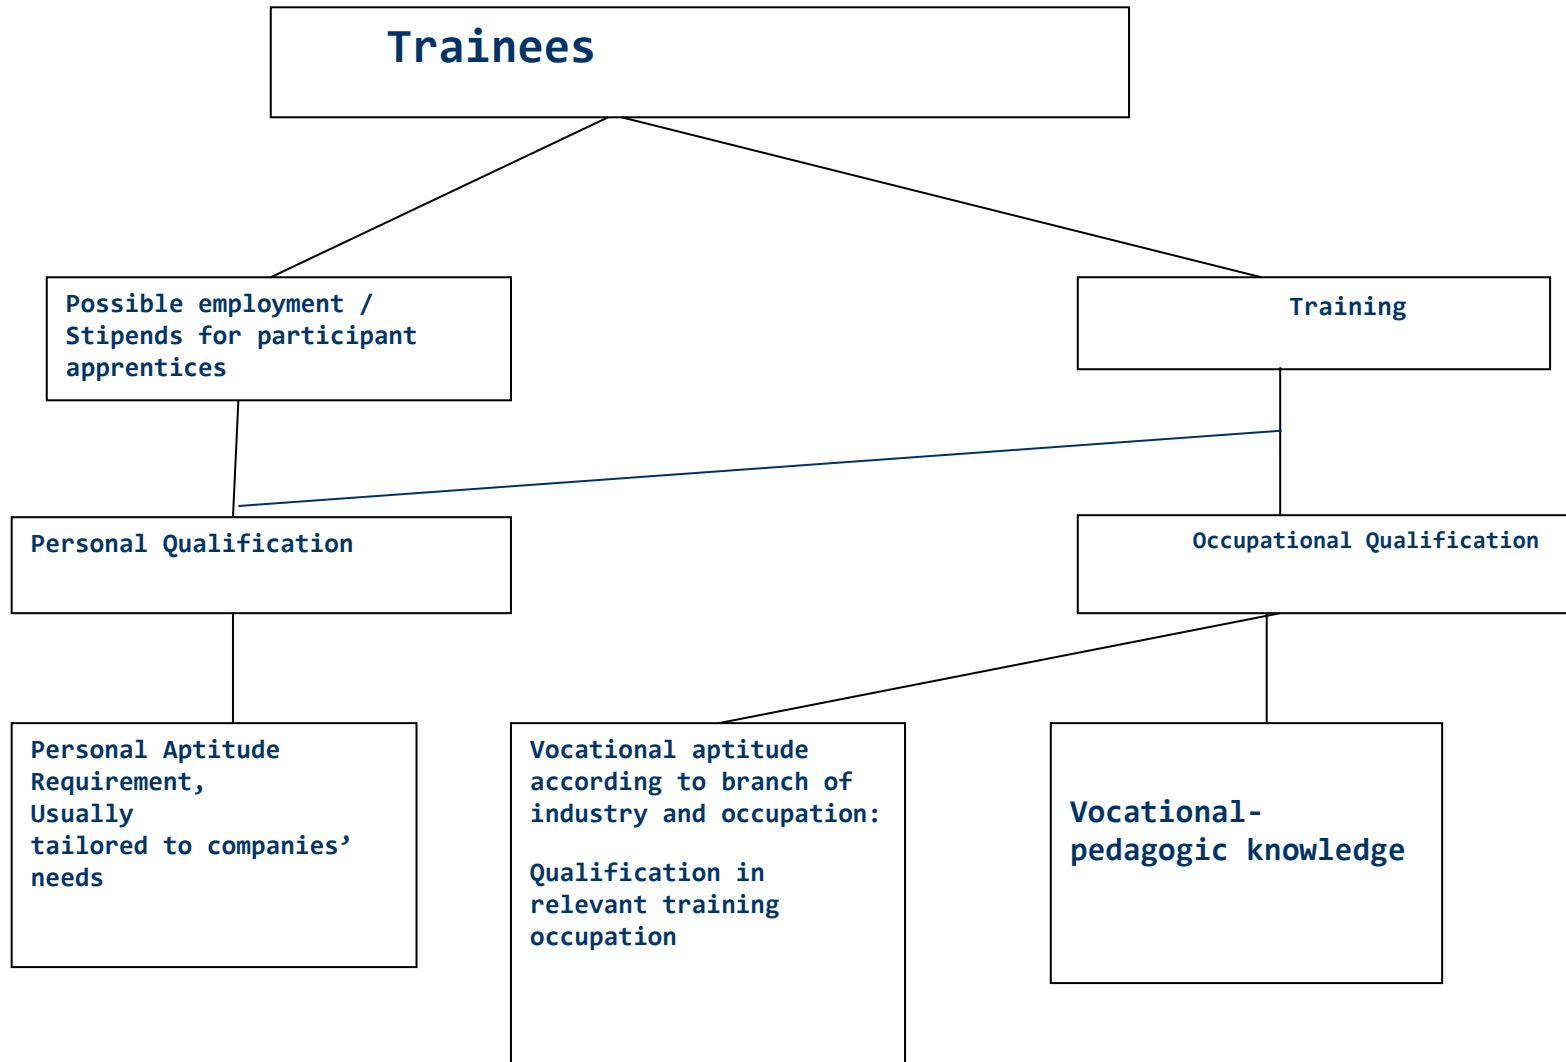

Project activities

- **Development of adapted curricula for a one year basic education within the dual system**
- **Advanced training of Nigerian trainers in theoretical as well as methodological regards**
- **Support of the Nigerian project partners in the introduction of a sustainable dual training structure as well as for the discrete execution of the training – Training duration= 1 year**
- **Publicity for an improved reputation of vocational training.**

OPERATIONALISATION OF DVT IN NIGERIA

Requirements to be met by training companies – For participants/trainees

Strengths and weaknesses of the Dual system

STRENGTHS

- +Low youth unemployment
- +Political acceptance
- +Self-responsibility
- +Broad-based
- +Practice oriented
- +Motivating
- +Principle of Supply and Demand
- +Nationwide uniform quality
- +Vocational mobility
- +Possibilities for career advancement

WEAKNESSES

- Not equivalent to general education
- Few courses for slow learners
- Extremely complex
