

# Technical and Vocational Education and Training (TVET) System in Lagos State

**Mr. Obafela Bank-Olemoh**  
Special Adviser to the Governor on  
Education, Lagos State

# A Case for TVET in Lagos State

**Lagos: 5th Largest Economy in Africa**

\* Migration per hour: Mumbai 69; New York 11; London 7;  
Source: UN

...the Technical and Vocational Education & Training (TVET) System is thus a key transformation lever for achieving the State's objectives...

# Our Journey So Far

Engaged KPMG to support in the redesign of the Lagos State TVET System

Feb 2017

Met with MDAs involved in TVET delivery and conducted site visits to select technical colleges and vocational centres

Feb 2017

Presented key findings to EXCO and obtained approval to design a new model for TVET delivery

Apr 2017

Developed draft "To-be" TVET system

Stakeholder Forum Took their feedback and compiled a report for EXCO

Oct 2017

Held series of stakeholder sessions with key players in TVET in the State

Mar 2017

Developed a report on the current state assessment of the TVET system and a high level conceptual framework

Mar 2017

Constituted workgroups made up government and private sector players to propose recommendations for "To-be" TVET system

Aug 2017

Met with select private sector TVET providers to obtain views and comments on proposed TVET system & Study Tour

Nov 2017

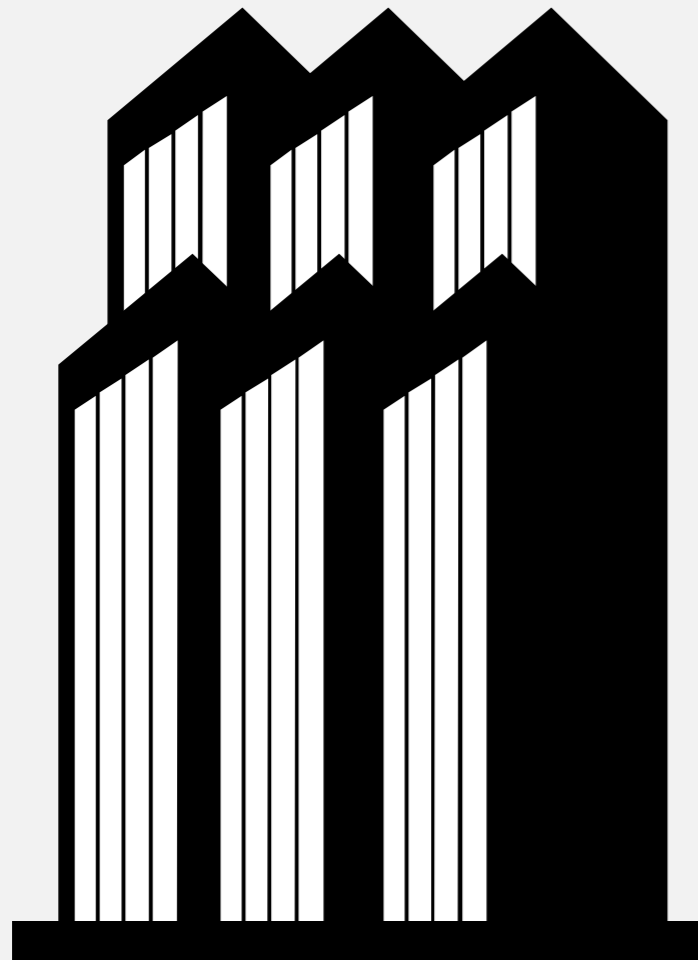

Nov 2017

Received EXCO approval to proceed with the implementation of the TVET Restructuring

Mar 2018

# Current Lagos TVET System

**5** Government Technical Colleges

**22** Government Vocational Centres

**532** Mass Literacy Centres

**9** Modern Apprenticeship Training Programme<sup>1</sup>

**~77** Technical/ Vocational/ Craft Trainings

**~430** Privately owned Vocational Centres

**Various** one-off interventions

**91,000\*** Appx. No of Students graduated in 2016 across Government and Private Sector

\*1,350 from 5 Government Technical Colleges. \*\* Varying quality of output

# Our Vision for TVET in Lagos

“

To create a TVET system that provides the **manpower** to drive the **Lagos economy**,  
**reduce our dependence on**  
**imported labour, attract investment**  
and become a **net exporter of**  
**technical and vocational skills**

# Where Lagos Should Be

## Employment

Transform the TVET system into a viable platform for employment and income generation

## Skills Match

Align output of the TVET system with the current and future skills needs of the State

## Private Sector Partnership

Evolve a mechanism to scale-up output, standards and governance working with private sector

## Perception

Change societal perception of TVET as an alternative education pathway

# Our Strategic Focus

Power

Infrastructure

Environment

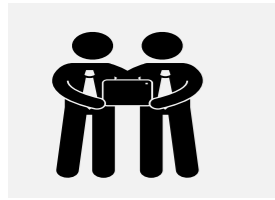

Transport

The selection of the focus sectors / trades have been driven by the following:

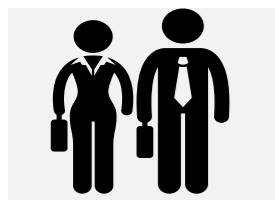

**Economic Growth** - sectors contribution to the State's GDP

**Mass Employment** - potential to create a large number of jobs in both formal and informal sectors

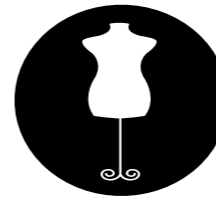

**Innovate Industries** - potential to create new jobs leveraging new/existing technology

**Gender Empowerment** - Trades that are gender inclusive

**Building Construction**

**Garment Making**

**Automobile Mechanics**

**Technology**  
(Cybersecurity & Call Centre)

**Tourism & Hospitality**

# 6 Elements of a successful TVET System

1

## **Schools Delivery Model**

Dual model – classroom based learning (theory and practical) and apprenticeship in an enterprise / organization for practical hands on experience.

2

## **Focus Areas**

Taught subjects / trades will be determined based on the skills relevant to achieving the LASG's strategic objectives

3

## **Standardization**

Uniform standards in curriculum, quality of teachers and certification

4

## **Governance and Organization**

Single point accountability and responsibility for regulating the delivery of TVET programmes in the State. **Separate Governance from Operations.**

5

## **Funding & Incentives**

Government must commit to funding the sector and providing incentives for private sector participation.

6

## **Private Sector Partnerships**

Collaborate with the private sector providers to scale up numbers and employers to provide apprenticeship opportunities for learners. Incentivise private sector.

# Highlights of Lagos TVET Roadmap

---

Single Agency responsible for  
Regulating the Delivery of TVET in  
the State

---

---

# TVET Village

A hub of private companies and technical training providers jointly addressing supply of skilled labour to meet industry demands.

---

---

# TVET Hubs

To service Clusters of Schools  
(Both Government and Private)

---

---

# Upgrade existing State-Owned Facilities

---

---

Establish relevant Partnerships with  
Private Sector Collaborators to  
expand access to TVET Education.

---

**A Robust and Functional TVET  
System is Critical to the Future  
Prosperity of Lagos**

# THANK YOU
